

EEA SIGNATURE BONUS COVER TEMPLATE

Add a cover to your signature to create a small booklet.

INSTRUCTIONS:

- 1) Cut out the template and trace around it onto heavy cardstock or thick paper. Fold the cover down the center between the spine lines.
- 2) Align signature inside cover and mark your signature hole placement down the center fold with a pencil. Punch or poke 3 holes through the cover where you marked.
- 3) Using a heavy needle and thread or embroidery floss, weave in and out through the holes of cover and signature and back again to bind them together.
- 4) Secure with a square knot. (Wrap left over right, then right over left). Leave a short tail to add a small hanging charm or few small beads if you desire.

You may add a strip of decorative Washi Tape or book binding tape such as Book Guard to create the look of a book and strengthen the spine. **Materials:** Scissors, cover paper, pencil, large needle, thread. Optional tiny hole punch, charm or beads, Washi Tape or Book Guard tape.
